Robert Wolfe  
Robert Wolfe Construction, Inc.  
868 Behrman Highway  
Gretna, LA 70056

Dear Mr. Wolfe,

I am extremely pleased and honored to write this letter of recommendation for Robert Wolfe Construction, Inc. Robert completed a build-out of our surgical suites in a medical professional building. The project was involved much high tech equipment including a CT scanner, piped medical gasses, and integrated surgical equipment.

Robert literally saved the day by taking over from a previous contractor who was unable to complete the job and had to be replaced. The efficiency, professionalism and resourcefulness of Robert led to the job being completed and exceeding all expectations.

Robert communicated constantly with myself, the architect, the subcontractors, and equipment suppliers. A phone call to him was responded to immediately and we had action within a day.

I would highly recommend Robert Wolfe Construction, Inc. to anyone who had any construction need.

Sincerely,

Randall M. Wilk, MD, DDS, PhD
