Re: Randy Grafe  
Supervisor of House Lift at  
4279 Jean Lafitte Boulevard  
Lafitte, Louisiana 70056

To Whom It May Concern:

We, Eric and Peggy Frickey would like to express our opinions of the job Robert Wolfe Construction was hired to do. Once approved in January 2014, Randy Grafe was assigned to the job. The job started on February 17, 2014 and amazingly finished in early May 2014, due to the great supervision of Randy Grafe.

From day one Randy was on top of the job and we wanted him to be acknowledged for his fine work. He consulted with us before starting the job, during the job, and upon the completion of the job. His spectacular disposition and sincere efforts put forth made all the difference. No matter what was requested of him for the job, without hesitation, he gave it his all, not stopping until we were 100% satisfied. The few requested things that were not granted was of no fault of Randy, just the decision of upper management.

Because of Randy our experience with the actual house lifting was exceptional compared to some of the stories told of lifts in the area. We are very thankful for Randy and his sincere dedication to the job.

Sincerely,

Eric and Peggy Frickey
