To Whom It May Concern:

When we decided to develop our property at 1729 Lafayette Street, Gretna, LA, we knew nothing about how to begin such a project and even less of how to choose a dependable, reputable, and trustworthy contractor. Through prayer and diligent counsel from our fellowship, we chose Robert Wolfe as a partner for our venture. We had met Robert at various functions at church, but very casually.

We showed Robert a building we liked and he guided us through our vision to completion of our two story, 6500 plus square foot luxury office building which surpassed even our expectation. We attest to his diligence, energy, and tenacity from pouring the slab to interfacing with local, parish, and state inspectors and regulators.

We began our journey as acquaintances and our relationship continues to this day as friends, comrades, and brothers.

We hope and pray that our input on his behalf shines favorably in regards to your current project.

Respectfully,

Elizabeth Phillips
